

Bus Requests for Students

The procedure for requesting that a student ride home on a different bus other than the one they are assigned with another student is:

1. Students making the request must be bus riders or have been assigned to a bus
2. There must be a 3 day notice, either in writing or by e-mail, from parents of the students involved prior to the date the student wishes to ride (the request must include both students' names and bus numbers and the date that is being requested).
3. The building principal must approve the request
4. The request is then sent to DCSD Transportation for approval
5. The approved request is given to the students for them to give to the driver of the bus they will be riding that day
