## APPLY TODAY

**There is still time to apply for summer and fall programs.**

We are still accepting applications for our summer radiography and nursing programs and fall nursing, occupational therapy, and public health programs.

## Early Applicant or Transfer Applicant?

We have recently updated our policy regarding when students may apply to Allen College programs. Apart from our Sonography program, all undergraduate programs will no longer hold priority application dates. This means that students can apply as early as their senior year in high school. Applicants with less than 24 college credits will be considered as early applicants, while those holding 25 credits or more will be considered transfer applicants. For questions regarding this new policy, please reach out to [admissions@allencollege.edu](mailto:admissions@allencollege.edu).

## Program Spotlight – Associate of Science in Radiography

The Allen College Associate of Science in Radiography program develops healthcare professionals with the skills and competencies needed to produce quality medical images. Hands-on clinical experiences allow practical application of knowledge, and graduates leave the program fully prepared for a rewarding career. Graduates may also continue their educational journey at Allen to earn a Bachelor of Health Sciences degree in the field of Medical Imaging.
