Wahlert Catholic High School

Course Selection Guide
2024-2025

Holy Family Catholic School District
Graduation Requirements

All students are required to complete...
- 4 years of English courses
- 3 years of science courses
- 3 years of social studies courses
- 3 years of math courses
- 4 years of theology courses
- 1 semester of personal finance (per State of Iowa requirements for all graduates)

Number of Credits Needed to Graduate
310 credits are required upon graduation. Within those credits, students must meet all core requirements. Note: Each semester of a class is worth 5 credits. The number of credits necessary for graduation decreases for students taking PSEO, PICC, or Internships. A PSEO, PICC, or Internship could take up multiple class periods due to travel time.

School Year | Marking System
Wahlert Catholic High School (WCHS) operates on a semester system. The school year consists of two semesters, each approximately 18 weeks in length. Some courses are offered for only one semester, worth 5 credits; while other courses are two semesters (or year-long) worth 10 credits.

Wahlert Catholic High School utilizes the following grading scale for all courses.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>97-100%</td>
</tr>

Weighted Grades
In an effort to encourage students to challenge themselves, course grades are weighted at the Honors and Advanced Placement/Dual Credit College level. (A traditional 4.0 “unweighted” grade point average can also be calculated if desired by contacting the Guidance Office.)
The semester grade is the permanent grade recorded for each course. Grade point values assigned to each letter grade are weighted as follows, depending on the nature of the course.

<table>
<thead>
<tr>
<th>Grade</th>

Course Offering Policy
This course guide contains a list of courses Wahlert Catholic High School plans to offer during the 2024-2025 academic year. The decision to offer a course is made by the administration based on student interest, enrollment, and availability of faculty. Due to these factors, the number of sections and/or seats available in each course may be limited. This may result in students being unable to enroll in particular courses.

Course Change Policy
Students can make changes to their schedule up to two weeks prior to the start of a semester. Upon the start of a new semester, students can make changes to their schedule by meeting with a school counselor and completing a Drop/Add form (with required teacher/parent signatures). Students may request changes to their schedule up to 10 days into the new semester.

Middle School Credit Option
Students who have a passing grade for Honors Integrated Math I at the end of their 8th grade year will receive credit for one year of math on their high school transcripts. The transcript will also show a letter grade. High school math courses taught in middle school receive high school credit, but the student's grade is not part of their high school cumulative GPA. Students will be required to take the class again the following year if they do not complete all coursework in Math I or if they do not have a passing grade at the end of the year.

Service Requirement
Commitment to service is a core value of our school's mission. It is a requirement for graduation that WCHS students complete a minimum of 5 hours of service per semester. This will equate to a 40-hour work week donated to the community by graduation. The Pass/Fail grade in Mentoring will be impacted by the completion of service. More than 5 hours per semester may be completed and tracked, but they will not carry over to the next semester.
How to track hours
All service hours will be submitted to the Helper-Helper app. Instructions on how to use the app to track hours and find opportunities will be provided to each student. For longer experiences such as a service trip, camp, or retreat 20 hours per experience per semester can be submitted. Hours completed in summer apply to 1st semester, and hours completed in between 1st & 2nd semester apply to 2nd semester.

Submitted hours will be validated and accepted if they meet the criteria of going “above and beyond personal responsibility.” Hours will be rejected based on inaccurate information. The coordinator of the service and the Ministry Director reserve the right to request further information, corrections, or, if necessary, to reject submitted hours.

Servant Cord
Students who wish to be recognized for their commitment to service can choose to apply for the Servant Cord at graduation if the student has completed a minimum of 200 approved hours of service by the final semester of their senior year. To apply, the candidate must write a 5-7 page reflection paper on his or her service answering all of the proposed questions, and turn in a recommendation written by an adult outside of Holy Family and outside of the student’s family. Further details will be provided for each student.

What is considered “service”? Service should go above and beyond our normal duty, expectation, and responsibilities to family, friends, school, church, teams, and clubs. Service should stretch us beyond ourselves and our personal responsibilities. Service should help meet a need in our community that may otherwise go unserved without people volunteering their time and talents.

The materials linked below are provided to help students discern what could be counted for service hours and what will not be counted toward service hours.

*To whom it applies this information is separate from NHS service requirements.

Service Ideas

Competency-Based Pathway Courses (CBE)
Some courses are offered through CBE Pathway (Competency-based Education Pathway). This type of course is offered in an innovative, flexible way. Rather than a regular class period meeting daily with face-to-face instruction, the student and teacher co-design a learning plan to meet the competencies for the course and set the time period in which course requirements will be met. Instructional plans may include face-to-face direct instruction, independent projects, and online learning components. The student shares evidence of learning with the certified teacher and the teacher evaluates that evidence aligned to course competencies (aligned to applicable state standards). Students can continue to revise and submit evidence of learning to show mastery. Once the competencies for the course have been met, the teacher submits the grade for credit. The start and end dates of a course using CBE pathways do not have to match a traditional semester schedule. However, if expectations established in the learning plan are not met, students may be deemed ineligible for extra-curricular activities. Students who wish to enroll in a CBE Pathway for a course, must seek guidance and approval from the school.
counselor, principal, and teacher with the certification to grant mastery for the course. Link: [Student Plan Sheet](#)

**Personalized Learning**

Personalized Learning has emerged as a leading educational model. As part of our commitment to ensuring that every student in our school system leaves with the knowledge and skills to be college-, career-, and citizenship-ready, Holy Family Catholic Schools has fully embraced this educational concept. Holy Family’s Gradient Learning model supports individualized, project-based student engagement, encourages collaboration and creativity, and promotes authentic work and meaningful assessments. It supports each student in achieving his or her individual potential, provides tools for teachers to engage with students more effectively, and empowers students to learn at an appropriate pace to ensure they have thoroughly learned the material.

**Beyond the Nest Pathways**

Wahlert takes pride in offering options in diverse career pathways. While at Wahlert, students can take high school courses and various electives, college level courses, internships, and career and technical certification program options. Our goal is to create a personalized pathway, designed specifically for each student’s needs and interests. Wahlert has created Beyond the Nest Pathways to specifically lay out course options in all career clusters. Options within this program include the following: Emergency Medical Technician (EMT) certification, Certified Nurse Aide (CNA) certification, Computer Numerical Control (CNC) certification, career and technical course options through NICC, internship opportunities with local businesses and organizations, options to take college transfer courses, as well as the opportunity to complete an Associates of Arts Degree while in high school. Students and families can reach out to Katie Lenart, College & Career Readiness Coordinator, if interested in learning more about obtaining an Associate of Arts Degree while at Wahlert Catholic High School.

**Seal of Biliteracy**

The purpose of Iowa’s Seal of Biliteracy program is to recognize graduating high school students who have demonstrated proficiency in English and at least one other world language. The program was created to support the importance of biliteracy as a critical 21st century skill.

A biliteracy seal:

- Values language as an asset.
- Recognizes the value of language diversity and cultural identity.
- Prepares students with 21st-century skills that will benefit them in the labor market and global society.
- Provides employers, institutions of higher education, and grant or scholarship providers evidence of a student’s world language skills and dedication to attaining biliteracy.

To be eligible for the Iowa Seal of Biliteracy, students must demonstrate proficiency in both English and another language. Wahlert students typically demonstrate proficiency in English by achieving either a score of 18 on the English portion of the ACT or score of 3 on the AP English Language or AP English Literature test. Wahlert students typically demonstrate proficiency in Spanish by achieving a score of 3 on the AP Spanish Language and Culture test or by scoring an Intermediate 2 on all sections of the AAPPL test.

**Source: Iowa Department of Education Guidance**
Advanced Placement (AP)
In Advanced Placement (AP) courses, students engage in intense discussions, solve problems collaboratively, and learn to write clearly and persuasively.

Advanced Placement offerings include…
- AP Biology *
- AP Calculus AB/BC
- AP US History
- AP Government
- AP English Language
- AP English Literature
- AP Spanish Language
- AP Spanish Literature
- AP Music Theory
- AP Computer Science A
- AP Computer Science Principles
- AP Physics *
- AP World History Modern

* Offered on a rotating basis based on course enrollment.

College Credit Opportunity – AP
Students who score “3” or higher on the spring AP exam may earn three college credits per passed exam (pending college approval). College credit is not given to test scores below a “3”. Most colleges accept these credits.
Please click or visit the link below for college/university credit policies:
https://apstudents.collegeboard.org/getting-credit-placement/search-policies

Courses Fees – AP
There is no cost associated with AP class participation; however, the exam fees are approximately $98 per exam.
Concurrent Courses
Concurrent courses are Northeast Iowa Community College or Clarke University courses taught at Wahlert during the regular school day by our qualified Wahlert teachers. Students will receive both high school and college credit upon completion of these courses.

Concurrent Course offerings include…

**Northeast Iowa Community College (NICC)**
- Composition I (College Writing, ENG 105) *
- Composition II (College Writing II, ENG 106) *
- Public Speaking (SPC 112)
- Statistics (MAT 156) * | Taught by NICC instructor at Wahlert.
- Introduction to Psychology (PSY 111)
- Introduction to Religion (REL 105)
- Foundations of Education (EDU 210)
- Introduction to Chemistry (CHM 110) & Introduction to Chemistry Lab (CHM 111)
- Chemistry I (CHM 160) & Chemistry I Lab (CHM 161) *
- Chemistry II (CHM 170) & Chemistry II Lab (CHM 171) *
- Computer Aided Drafting I (CAD 104)
- Computer Aided Drafting II (CAD 105)

**Clarke University**
- Pre-Calculus with Algebra (MAT117)
- Approaches to Hispanic Literature (SPAN 250)

* Students must have a qualifying ACT score and/or cumulative GPA to participate in these courses.

**College Credit Opportunity – Concurrent Courses**
All courses mentioned above are worth 3 college credits each. Most colleges accept these credits. In some circumstances, transferring these credits may require further documentation (a syllabus, for example).
- Please check with prospective colleges/universities for transferability.
- Wahlert will use the NICC grading scale to designate letter grade on student’s transcript.

**Course Fees – Concurrent Courses**
The concurrent courses listed above are free of cost, except Statistics, Pre-Calculus with Algebra, and Approaches to Hispanic Literature. These courses come at a reduced rate. The contracted courses guarantee seats for our students. Students must adhere to the college’s drop/add dates should the need arise. Students are also responsible for any associated book fees. Financial aid for textbooks is available for those who qualify.
**Placement in College Credit (PICC) Courses**
The Placement in College Credit (PICC) program allows high school students to enroll part-time in college credit courses at Northeast Iowa Community College (NICC), prior to high school graduation.

**Course Offerings (PICC)**
Students can take courses through NICC while enrolled at Wahlert. Paperwork for these courses can be completed through Wahlert’s Counseling Office. Course options could include: World Regional Geography (GEO 121), Art Appreciation (ART 101), Introduction to Sociology (SOC 110), Cultural Diversity & Identity (HUM 108), Welding Fundamentals (WEL 330), Medical Terminology (HSC 114), and many more.

---

**Post-Secondary Education Opportunity (PSEO) Courses**
Post-Secondary Education Opportunity (PSEO) courses are college courses taken at the local colleges on their campuses, with their professors, and with college students.

**PSEO course offerings include…**
- PSEO courses must be pre-approved by the State. Paperwork to apply for PSEO courses can be found in the Wahlert Guidance Office.
- The basic rule is that the student must have taken the highest high school offering (In Dubuque) for that course type before taking a related college course.

**Popular Clarke University PSEO course offerings:**
- Art & Design Methods (DMS 105)*
- Form & Communication (DMS 230)*

**College Credit Opportunity – PSEO Courses**
College credits given based upon specific college regulations.
- Please check with prospective colleges/universities for transferability.
- Wahlert will use the college/university grading to designate letter grade on transcript.

**Course Fees – PSEO Courses**
Approved PSEO courses are free to students living in Iowa and have a qualifying score on the Iowa Assessments. Students are not responsible for book fees.
College Credit Opportunity – PICC Courses
College credits are given based upon specific college regulations. High school students must meet the requirements and guidelines for the NICC class for which they are registering, including a qualifying ACT, ALEKs Math, or ACCUPLACER placement score.

- **Wahlert will use the NICC grading scale to designate letter grade on student’s transcript.**
- **Please note** – Wahlert staff does not have access to students’ college course grades. It is the responsibility of the student to communicate any concerns with Wahlert’s Counseling Office and their parents.

Course Fees – PICC Courses
Students who live within the Dubuque Community School District and have a qualifying ACT or ISASP score can take PICC courses free of cost. Dubuque Community School District will also cover the cost of required textbooks. Students taking Career & Technical courses through NICC do not need a qualifying assessment score.

Students who live outside of the Dubuque Community School District will be charged approximately $380, plus any additional cost for books or materials. PICC courses are available to all Wahlert students. Please contact Wahlert Catholic High School’s Counseling Office regarding financial assistance.

To learn more about how your student can achieve college credit during high school, [click here to visit](#) Wahlert Catholic High School’s Counseling Office website.

Off Campus Policy
*Internships, College Release, and College Release – Online courses*
Students are allowed to be off campus during the day if they are enrolled in an internship, college release, or college release – online course. Parent permission is required at the start of each semester. Students taking these courses may also choose to stay on campus. Students are required to sign in and out from the main office if they have parent permission to leave for their course or internship.

Regent Admission Index (RAI)
Iowa high school graduates must achieve a Regent Admission Index (RAI) score of at least 245 and take the minimum number of required high school courses to qualify for automatic admission as freshmen to Iowa State University, the University of Northern Iowa, and the College of Liberal Arts and Sciences at the University of Iowa. Students who achieve a score less than 245 will be considered for admission on an individual basis. The Regent Admission Index combines factors that strongly predict success at regent universities: ACT or SAT test score, high school cumulative grade-point average, and the number of completed high school core courses. [Click here to learn more](#).

NCAA Eligibility Center
National Collegiate Athletic Association
Student athletes hoping to play at the collegiate level (D1, D2) should visit the NCAA Eligibility Center online at: https://web3.ncaa.org/ecwr3/. The six-digit CEEB code for Wahlert Catholic High School is 161307. Courses that qualify as core courses for NCAA are noted in this guidebook with (NCAA) next to the course name. Click here for an NCAA high school timeline. Please contact Wahlert Catholic High School’s Counseling Office with questions about the NCAA process.

NAIA Eligibility Center
National Association of Intercollegiate Athletics
PlayNAIA.org helps future student-athletes discover and connect with NAIA schools, coaches and athletic scholarships. PlayNAIA is also the official clearinghouse for NAIA eligibility. Every student-athlete must register with the NAIA Eligibility Center to play sports at an NAIA college or university.

The NAIA Eligibility Center is responsible for determining the NAIA eligibility of first-time athletes. Any student playing NAIA sports for the first time must meet their eligibility requirements. Students must have their eligibility determined by the NAIA Eligibility Center, and all NAIA schools are bound by the center’s decision. High School seniors who wish to participate at an NAIA school need to register at: http://www.playnaia.org. Please contact Wahlert Catholic High School’s Counseling Office with questions about the NAIA process.

Theology

- Four years required.
- Students are required to take a religion course each semester.
- It is a requirement for graduation that WCHS students complete a minimum of 5 hours of service per semester. Click here for a complete overview of the service requirement.

9th Religion | What is the Bible?
9th Grade | Semester Course
610 - 5 credits

The purpose of this course is to give students a general knowledge and appreciation of Sacred Scripture. This course explores what the Bible is, what the different genres of biblical literature are, and creates connections between the First and Second Testaments. We will spend time talking about the importance of narrative for religious and cultural meaning making, reading selections out of both testaments to trace the experiences with God of our foremothers and fathers in faith.

9th Religion | Who is Jesus?
9th Grade | Semester Course
610 - 5 credits

The purpose of this course is to continue studying Scripture and focuses particularly on the Second Testament writings up through the first century about Jesus and the Church. This course explores the person of Jesus in the gospel of Matthew to trace Old Testament themes (introduced in the Fall semester course) that are played out in the Jesus story. Encountering Jesus as the Living Word in Scripture invites students to reflect on discipleship and who Jesus calls them to be.
Sophomore Religion | Covenant Relationship & Jesus as the Fulfillment of the Promise
10th Grade | Semester Course
620 - 5 credits

The purpose of this course is to help students understand the Love God has for them and what God has done for us through Jesus Christ. Students will learn that God has a plan for us to share eternal happiness which is accomplished through the redemption Christ won for us. Students will learn that they share in this covenant/redemption. They will be introduced to what it means to be a disciple of Christ and what life as a disciple demands.

Sophomore Religion | If Jesus is a Jew, Why are We Christians? How the Church Began and Lives On!
10th Grade | Semester Course
620 - 5 credits

The students will be introduced to the fact that the Church was founded by Christ through the Apostles and is sustained by him through the Holy Spirit. Students will study the Acts of the Apostles and learn the challenges of Discipleship. They will come to know that the Church is the living Body of Christ today. This body has both divine and human elements. In this course, students will learn about events in the life of the Church, and the sacred nature of the Church.

Junior Religion | The Principle of Sacramentality: A Theology of Grace
11th Grade | Semester Course
650 - 5 credits

When asked the question “What is a Sacrament?”, many think of specific Sacraments such as Baptism and Eucharist. This is a beautiful answer, but it is incomplete. What makes a Sacrament a sacrament? This is another question all together and its answer brings to life the depth and beauty of the 7 Sacraments the Catholic Church celebrates as well as her mission. This course explores this question and in doing so invites students into an understanding of God’s Grace in a personal way and how they can, and do, encounter the Love of Christ in any moment. “Because God is everywhere, God must be experienced somewhere and that somewhere can be anywhere.” – Fr. Michael Himes
Junior Religion | Love as a Virtue: An Introduction to Catholic Morality
11th Grade | Semester Course
650 - 5 credits

Jesus expresses and lives the greatest commandment, “Love God with all your heart, mind, and soul and Love your neighbor as yourself.” The Goal of Christian morality is the mission of our Faith…Love. The question is what is this Love and how do we become what it is that we seek? This semester’s course explores the Virtuous Love that Jesus offers and invites us into. We explore the philosophical and ethical implications of this reality as well as its practical implications in our relationships with self, others, and God.

Seniors must pick one religion class each semester.

Senior Religion | Social Justice in our World & World Religions
12th Grade | Semester Course
660 - 5 credits

Students will learn the Catholic Church’s social teaching. Students are to understand how Christ’s concern for others, especially the poor and needy is present today in the Church’s social teaching and mission. Students will also learn and understand how the Catholic Church relates to other religions of the work and Christian denominations.

Senior Religion | Life’s Vocations: Single, Ordained, Consecrated, and Married
12th Grade | Semester Course
660 - 5 credits

Students will learn the vocations of life: how Christ calls us to live. Students are to understand how all vocations are similar and how they differ. The course will be structured around single, ordained, consecrated, and married life. Students will learn what it means to live life for the benefit of others and the value in considering a vocation in service to the Christian community.

Philosophy of Theology (Elective)
12th Grade | Semester Course
670 - 5 credits

This course will introduce students to western philosophy by having them read some of the best philosophers from each of the major periods of its history: Ancient (Plato and
Aristotle), medieval (Augustine and Aquinas), and modern (Descartes) and apply their philosophies (metaphysics, epistemology, and ethics) as a basis for understanding Catholic Scripture and Catholic teaching. Students will also occasionally read relevant works by more contemporary philosophers and apply their thought processes to the same understanding of Catholic scripture.

**Introduction to Religion** *(NICC / REL 105)*

12th Grade | Semester Course  
664 - 3 College Credits | 5 High School Credits

This course is a topical introduction to the study of religion and explores the human search for the Sacred, Holy, or Ultimate. Through descriptions and analysis of religious expressions common to all faith traditions, students will develop an understanding of religion using examples from different religious traditions as well as from literature and philosophy.
Real World Communication
10th, 11th, 12th Grades | Semester Course
326 - 5 credits
(RAI)

Real World Communication helps students develop an understanding and appreciation for effective communication in real world situations and environments. Emphasis is placed on all phases of communication: speaking, listening, thinking, responding, reading, writing, communication non-verbally, and utilizing technology for communication. Post-secondary schools and future employers are looking for those who persist and have a sense of responsibility, self-worth, sociability, self-management, integrity, and honesty. Real world communication functions, processes, and applications in the context of real-world situations such as teamwork, influencing others, leadership, negotiation, and working with diversity will be practiced through problem-based projects and real-world application. Five English credits will be given to Real World Communication, and therefore the course meets the Oral Communication graduation requirement.

Emergency Medical Technician (EMT) (NICC | EMS 200)
12th Grade | Spring Semester Course
285 – 10 credits (8 College Credits)

(Course taught at Dubuque Community School District; takes up four class periods at Wahlert.)

This 132-hour course prepares the Emergency Medical Technician (EMT) student to provide pre-hospital assessment and care for patients of all ages with a variety of medical conditions and traumatic injuries. Areas of study include an introduction to emergency medical services,
roles and responsibilities of an EMT, anatomy and physiology, medical emergencies, trauma, special considerations for working in the prehospital setting, and providing patient transportation. Students who successfully complete this class will be eligible to take the National Registry of Emergency Medical Technicians for their EMT certification examination.

Prior to the first class, a MANDATORY orientation will be scheduled. This course is designed for students interested in exploring a career in the Emergency and Fire Management Services career pathway, in the Law, Public Safety, Corrections & Security career cluster, or in the Health Science career cluster. This includes but is not limited to the following occupations:

- Certified Nurse Aide (CNA)
- Emergency Medical Technicians
- Emergency Medicine Physicians
- Fire Inspectors and Investigators
- Firefighters
- Paramedics
- Police and Sheriff's Patrol Officers
- Nurse Practitioners

Program Admission Requirements:

- Must be at least 17 years of age by the first day of class to enroll.
- CPR Certificate from either the American Heart Association Basic Life Support (BLS) or the American Red Cross CPR for Healthcare Providers. The card must be provided to the instructor prior to the first class. This certification must be valid for the duration of the course.
- Other admissions requirements apply, including but not limited to background checks, health records, and drug testing. Students are responsible for required background check fee and TB skin test fees, uniform and supplies and the optional state licensure exam fee. Students are responsible for their own transportation to labs and clinicals.

This is a concurrent enrollment course. In addition to high school credit, students will earn 8 college credits at NICC. Due to college registration deadlines, late registrations will be scheduled into second semester if space is available. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

**Certified Nurse Aide** *(NICC | HSC 172)*
12th Grade | Semester Course
286 – 10 credits (3 College Credits)

*(Course taught at Dubuque Community School District; takes up two class periods at Wahlert.)*

*Pre-requisite:* Students must be 16 years of age by the start of clinical work; successful completion of Accuplacer Reading testing with a minimum score of 44 or ACT English minimum score of 15; two negative TB skin tests; successful background check
The course is designed to provide the knowledge and practical skills necessary to provide care and service to residents in long-term care facilities by preparing individuals to become efficient, caring members of the health-care team. Thirty hours of theory will consist of classroom lecture regarding the cares provided by a Certified Nurse Aide. Fifteen hours in a laboratory setting outside of the school day will provide “hands on” experience of competencies prior to attending 35 hours in a clinical setting. The clinical experience provides students the opportunity to experience resident care in the long term care environment. Upon successful completion of this course, students will be eligible for state licensing and can test out of skills. Students are responsible for required background check fee and TB skin test fees, uniform and supplies and the optional state licensure exam fee. Students are responsible for their own transportation to labs and clinicals.

This is a concurrent enrollment course. In addition to high school credit, students will earn 3 college credits at NICC. Due to college registration deadlines, late registrations will be scheduled into second semester if space is available. Contact your school counselor and/or the admissions office of the postsecondary institution you plan to attend for more information on the transferability of the credits.

**Introduction to Health Occupations** *(articulated course through NICC)*

10th, 11th, 12th Grades | Spring Semester Course
HSC 110 – 5 credits

We have partnered with NICC and UnityPoint Health to offer HSC 110 - Intro to Health Occupations. This course is available to 10th-12th grade students and will be offered second semester during 3rd period. The course will contain both a learning and experiential component. Beth Bries, RN Clinical Education Lead at UnityPoint Health, instructs the course. She teach the course remotely, on Wahlert’s campus, as well as coordinates visits to UnityPoint Health to observe health professionals and tour different departments within the hospital bi-weekly throughout the semester. This is a non-credit bearing course that is articulated through NICC and cannot be transferred to other institutions. This course is free of charge.

**Course Description**: Orientation to the institutions that comprise our healthcare system. Explores the health care system and the ethical, legal and safety issues influencing and regulating health practice and maintenance. Explores health career pathways in therapeutic, diagnostic, health informatics and support services.

Again, this course will transfer to NICC, but cannot be transferred to other institutions. See the link below that explains this articulation.

[https://www.nicc.edu/admissions/high-school-students/college-credit-for-high-school/articulation-process/](https://www.nicc.edu/admissions/high-school-students/college-credit-for-high-school/articulation-process/)
Welding Fundamentals *(NICC | WEL 330)*  
10th, 11th, 12th Grade | Semester Course  
287 - 5 credits  

This course takes place on NICC’s campus and takes up two class periods at Wahlert. During this course students will utilize SMAW, GMAW, and flame/plasma equipment using various techniques and skills.

Personal Finance  
10th 11th, 12th Grade | Semester Course  
149 - 5 credits  

Personal Finance 1 will cover the basics of money management. The curriculum and class will be formatted as the current solo Personal Finance operates. Students will learn the basics on saving, investing, retirement/college funding, debt/credit management, budgeting, checking accounts, insurance, taxes, and mortgages.

Am I Ready?  
11th, 12th Grade | Semester Course  
950 - 5 credits  

This course is the recommended pre-requisite for internships. This course empowers students in finding and solving a problem which relates to student life in school, community, and beyond. They will learn to collaborate, communicate, research, and solve problems identified by students. Students can choose a focus on college and career readiness. Students will present their project work at an exhibition or panel held at least one time at the end of the course for credit.

Faith in Action | Service Learning  
11th, 12th Grade | Semester Course  
951 - 5 credits  

* Teacher approval required for this course.*

A class that is designed to bridge the gap between students, the community, and their faith. In this class students will take an active role in identifying needs in the community and seek to design and implement possible solutions. Students will be the catalyst of each step of the service: outreach, planning, implementation, and reflection. This dynamic class will offer students the opportunity to serve firsthand in different economic, social, and cultural situations and will seek to bring to life Galatians 5:3, “serve one another humbly in love.”
Foundations of Education (EDU 210)
11th, 12th Grade | Semester Course
854 - 5 credits

*Offered on a rotating basis based on enrollment.

This course provides a basic historical, philosophical, and sociological orientation to the field of American education, including a study of contemporary issues and problems. This is a great option for students interested in pursuing a career in Education. This is a concurrent course through Northeast Iowa Community College (NICC). This will be taught in-person at Wahlert High School by a Wahlert instructor. The course is free of cost.

Internship – Off Campus
12th Grade | Semester Course (covers two class periods on schedule)
157 - 5 credits
Recommended Pre-Requisite: Am I Ready?

Internships provide real world experience to those looking to explore or gain the relevant knowledge and skills required to enter a particular career field. The internship is a semester long opportunity with the primary focus of getting some on the job training and taking what is learned in the classroom and applying it to the real world. Students interested in this experience must provide evidence that the skill level growth accompanying the internship is on-going, which challenges their current skill level via problem-solving, communication, imagination, and teamwork. The internship is not a simple job, which requires low level skill expectations. Internships take up two class periods. Students are required to complete an application. Applications can be found in Wahlert’s Counseling Office.

To learn more about this program, please see Mrs. Lenart in the Counseling Office, or visit: https://www.holyfamilydbq.org/wchs/counseling/wahlert-internship-program/

Students can take career and technical courses through Dubuque Community School District such as Autos I, Metals, Construction I, Architectural Design, Web Design, and others. If interested, please connect with Wahlert’s Counseling Office for more details.
Physical Education

**Fitness for Life (Spin)**
9th, 10th, 11th, 12th Grade | Semester or Year Course
223 - 5, 10 credits

Fitness for Life will aim at preparing students to navigate fitness after they graduate high school. The course will investigate and navigate popular apps like the Peloton app. This course provides a unique, indoor, group stationary cycling program. Spinning is an efficient, high-energy group exercise that integrates music, and energy. Spinning emphasizes everyone’s individual needs, regardless of athletic ability, taught in a group atmosphere. Athlete or non-athlete, this course will offer fun and intense workouts to help you meet your fitness goals.

**Team & Recreational Sports**
9th, 10th, 11th, 12th Grade | Semester or Year Course
214 – 10 Credits

The student in this class will demonstrate the fundamentals and basic skills in many of the following recreational activities: basketball, flag football, floor hockey, soccer, softball, team handball, volleyball, and other team activities. The learner will participate cooperatively and ethically in competitive physical activities. Conditioning and fitness through various activities will be required.

**Strength & Conditioning**
9th, 10th, 11th, 12th Grade | Semester or Year Course
219 – 5, 10 credits

This class will focus on activities to enhance physical fitness: strength, speed, and endurance. Students will gain an appreciation of exercise for life-long fitness. Strength training, utilizing a weight program combined with supplemental lifts and exercises, is the basis of the class. Running, plyo-metrics, agility, flexibility work, and speed development activities are utilized in the class. Knowledge of muscle groups and specific exercise to enhance muscular development are included.
Health & Fitness  
9th, 10th, 11th, 12th Grade | Semester Course  
222 - 5 credits

Health is concerned with providing students with the goal setting and decision-making skills to enhance healthful behavior and reduce health risks. Students will study concepts related to health promotion and disease prevention. They will learn how to access valid health information and health promoting products and services. In addition, each person will develop communication skills to enhance their personal level of health and to act as an advocate for family and community health. This elective is open to all students.

Self Defense  
9th, 10th, 11th, 12th Grade | Semester or Year Course  
239 – 5, 10 credits

This class is a self-defense course primarily designed for beginners interested in being exposed to differing philosophies in self-defense. The course covers techniques for both standing and ground fighting. The units of study will offer introductions to wrestling, boxing, and jujitsu.
Honors Ninth Grade English
9th Grade | Year Course
311E – 10 credits
(RAI, NCAA)

In this class we’ll be reading short stories, poems, plays, novels, and other genres of literature. We’ll also do various kinds of writing to further explore and clarify our thinking about ourselves, our lives, and, of course, the various literary works and themes. Sometimes we’ll have discussions or do activities or give presentations to practice and improve speaking, listening, and library skills, and to help us make connections to literature.

Real World Communication
10th, 11th, 12th Grades | Semester Course
326 - 5 credits
(RAI, NCAA)

Real World Communication helps students develop an understanding of and appreciation for effective communication in real world situations and environments. Emphasis is placed on various phases of communication including speaking, listening, thinking, responding, writing, non-verbal communication, and utilizing technology for communication. Five English credits will be given to Real World Communication, and therefore the course meets the Oral Communication graduation requirement.

Honors Sophomore English
10th Grade | Year Course
321E - 10 credits
(RAI, NCAA)

In this class we’ll be reading short stories, poems, plays, novels, and other genres of literature. We’ll also do various kinds of writing to further explore and clarify our thinking about ourselves, our lives, and the various literary works and themes. Sometimes we’ll have discussions or do activities and presentations to practice and improve speaking, listening, and library skills, and to help us make connections to literature. Such activities will further your abilities to analyze, evaluate, and appreciate literature, film, and writing.
**Honors Junior English**  
11th Grade | Year Course  
320 - 10 credits  
(RAI, NCAA)

**Prerequisite:** It is recommended that students have had a successful learning experience in previous English course.

In Junior English, students will read, write and study authors and characters in world literature in thematic, historical, cultural, and literary contexts. Students will explore human thought, beliefs, fears, and concerns from a global perspective as they develop critical reading, writing, discussion, and thinking skills based on personal reflections, favorite selections, and their own global identity. Students will develop and refine their writing skills for success in future academic and professional pursuits using the process approach to writing.

**AP English Language & Composition**  
11th, 12th Grades | Year Course  
331 - 10 credits  
(RAI, NCAA)

**Prerequisite:** It is recommended that students have had a successful learning experience in previous English course.

AP Language and Composition students will polish their writing styles and improve critical thinking. Students will develop fluency and confidence in writing and clarity in thinking by using process writing for Advanced Placement (college-level) argumentative essays, synthesis essays, and rhetorical analysis essays. In addition, students will review and apply correct usage, sentence variety, and correct mechanics to refine their writing styles. Students are encouraged to take the Advanced Placement English Language Exam for college credit. Students enrolled in this AP course will read a variety of fiction and nonfiction including *The Great Gatsby* and many short works of nonfiction including essays, speeches, letters, and articles. This course further emphasizes the development of critical reading skills and analytical writing skills based on close reading of nonfiction. Students will refine their reading and writing skills for 21st century competence. In addition, students will cultivate habits of reading, writing, speaking, listening, and thinking that characterize life-long learning and enjoyment.
AP English Literature
11th, 12th Grade | Year Course
341 - 10 credits
(RAI, NCAA)

Senior AP English serves those students who are committed to completing a course more rigorous and demanding than other high school English courses. The course emphasizes the continued development of skills in critical thinking and writing, analysis, evaluation, and synthesis about literature and related ideas. Students are expected to demonstrate their achievement in college-level work by taking the AP English examination in Literature and Composition administered by Education Testing Service for the College Board in May of each school year.

The long-term goals of this course include enabling students to learn at a rate commensurate with their abilities, to investigate literary material that intellectually mature students find engaging, to refine reading and writing skills important for success in the 21st century, and to cultivate habits of reading, writing, speaking, listening and critical thinking that characterize life-long learning and enjoyment.

Honors Senior English
12th Grade | Year Course
349 - 10 credits
(RAI, NCAA)

In Honors Senior English, students will read and study fiction and nonfiction literature in thematic, historical, cultural, and literary contexts. Students will explore human issues through critical reading, writing, discussion, and thinking. Students will develop and refine their writing skills for success in future academic and professional pursuits using the process approach to writing, which includes peer editing. In addition, students will review for the English section of the ACT exam.

College Writing I *(NICC’s ENG-105, Composition I)*
12th Grade | Semester Course
375 - 5 credits *(3 NICC credits)*
Prerequisite: Entrance test of NICC required OR ACT of 21 in English
(RAI, NCAA)

*Course book fee set by NICC*

College Writing I prepares students for types of communication and thought essential to academic and working-world success. The course focuses on writing as a process intended to help students identify and refine their own personal writing process. Specific essays include narrative, descriptive, expository, and persuasive. The conventions of standard written English will be reviewed and tested, and students will
polish their own writing by applying these conventions. The course requires each student to compose a minimum of 32 pages of edited work (final products, not drafts). This course will help motivated students polish their personal writing skills before college. Class size is limited and set by Northeast Iowa Community College (NICC).

**College Writing II (NICC’s ENG-106, Composition II)**

12th Grade | Semester Course  
376 - 5 credits (3 NICC credits)  
**Prerequisite**: Pass College Writing I with at least a 76% (RAI, NCAA)

*Course book fee set by NICC*

College Writing II focuses on writing as a process with emphasis on exposition, persuasion, evaluation, analysis, investigation, and research. The course extends the instruction and practice of College Writing I (College Composition I) to help improve thinking and polish writing skills needed for academic and working-world success. The course requires each student to compose a minimum of 32 pages of edited work (final products, not drafts). This course will help motivated students polish their personal writing skills before college. Class size is limited and set by Northeast Iowa Community College (NICC).

**The following are also English electives, but do not count toward the required four years of English.**

**Mass Communication – Yearbook**  
9th, 10th, 11th, 12th Grades | Year Course  
362 - 10 credits

Students in this course provide a community service to the school as they learn to think critically, conduct interviews, write clearly for an audience, and communicate events visually through photography and verbally through text. They will work as a team to plan, organize, and create the school’s yearbook. Additionally, they will practice persuasive speaking techniques when soliciting ads for the financial support of the publication and use problem-solving and technological skills while striving to communicate their and others’ ideas effectively. This course teaches many of the basic elements of magazine journalism.
Mass Communication - News
9th, 10th, 11th, 12th Grades | Year Course
363 - 10 credits

Students in this course learn to think critically, research topics, conduct interviews, write clearly for an audience and work as a team as they plan, organize, and create the school’s newspaper and use social media, as well as a variety of mediums – including video and audio, to convey information and stories about the school and its community. They also practice persuasive speaking techniques when soliciting ads for the financial support of the publication and use problem-solving and technological skills while striving to communicate their and others’ ideas effectively. Additionally, students learn about, appreciate, and practice their rights and responsibilities as citizens of a democracy. This course teaches many of the basic elements of newspaper journalism.

Public Speaking (NICC | SPC-112)
10th, 11th, 12th Grade | Semester Course (In-person)
324 - 5 credits
(RAI, NCAA)

Students interested in taking Public Speaking through Northeast Iowa Community College (NICC) can take the course concurrently. Students will receive both high school and college credit. An introductory course designed to help students develop skills as speakers and critical listeners, increase understanding of the concepts and principles of verbal communication, and become more effective communicators in formal and informational speaking situations.

AP Calculus BC
Honors Integrated Math I
9th Grade | Year Course
540E - 10 credits
(RAI, NCAA)

Honors Integrated Math II
10th Grades | Year Course
541PL - 10 credits
(RAI, NCAA)

Integrated Math II employs a collaborative approach to the fundamentals of Mathematics. In Math II, students will continue the study of various genres of Math and build upon the skills acquired in Math I. The major Math units in the course include: Introduction to Quadratic Functions, Quadratic Equations, Complex Numbers & Rational Exponents, Similarity, Right Triangle Trigonometry, Coordinate Geometry, and Conditional Probability.

Honors Integrated Math III
11th Grade | Year Course
542PL - 10 credits
(RAI, NCAA)

Integrated Math III is the third and final Mathematics course in the sequence of Math courses that employ a collaborative approach to the fundamentals of Mathematics. In Math III, students will continue the study of various genres of Math and build upon the skills acquired in Math I and Math II. The major Math units in the course include: Sequences & Functions, Polynomials, Exponential Functions & Equations, Transformations of Functions, Circles, Trigonometric Functions, Statistical Inferences, and Solids Geometry.
Pre-Calculus
11th, 12th Grade | Year Course
550 - 10 credits
(RAI, NCAA)

Pre-Calculus is intended for students who have successfully completed Algebra 2. It is recommended for students who will be involved in college courses such as Calculus, Accounting, Statistics, Physics, and Computer Programming. Pre-Calculus uses all of the skills and concepts of Algebra and Geometry, and introduces new topics such as Trigonometry, polar coordinates, sequences, limits, derivatives, and integrals. A scientific calculator is required. Criteria for Pre-Calculus is a B average or better in Algebra 2.

Pre-Calculus with Algebra *(Clarke University | MATH 117)*
518 - Year Course
3 college credits | 10 high school credits
Prerequisite: Integrated Math III or Honors Algebra II
(RAI, NCAA)

Enrollment based on required teacher recommendation.

Oriented to preparation for calculus, this course continues the exploration of functions, including algebraic, exponential, and trigonometric functions. Students learn about functions through symbolic, numerical, graphical and verbal techniques. This computer-assisted course utilizes a self-paced learning environment. Motivated students who complete both MATH 090 and MATH 117 in one semester may be eligible to earn 6 credits. This course may not be taken for credit if a grade of C or above was achieved in a higher mathematics course (with the single exception of MATH 220 Statistics). Students must receive a grade of at least C- in this course to enroll in a higher-level math course (with the single exception of MATH 220 Statistics). This course fulfills the university mathematics proficiency requirement. Prerequisites: Three years of high school mathematics or equivalent and appropriate placement.

AP Calculus AB
11th, 12th Grade | Year Course
561 - 10 credits
Pre-requisite: Honors Pre-Calculus
(RAI, NCAA)

Advanced Placement Calculus stresses the techniques and applications of differential and integral Calculus. These techniques and applications are often requirements for a variety of college majors including, but not limited to: Bachelor of Science degrees in the engineering sciences, physical sciences, biological sciences, mathematical sciences, psychology, and pre-medicine. Because this is essentially a college-level course,
students taking Calculus will be expected to spend an average of between one and two hours daily on reading and assignments. At the conclusion of the course, students may take an Advanced Placement Calculus exam for college credit. In some cases, this credit may fulfill the student’s college mathematics requirement for graduation. The applications of calculus that appear on the Advanced Placement calculus exams tend to involve non-routine physics concepts.

AP Calculus students are advised to enroll in the Physics course if they intend to take the Advanced Placement calculus exam. The AP calculus exam includes problems that require the use of a graphing calculator. Only graphing calculators are permitted for student use during the AP calculus exam.

**AP Calculus BC**  
11<sup>th</sup>, 12<sup>th</sup> Grade | Year Course  
562 - 10 credits  
*Pre-requisite: AP Calculus AB*  
(RAI, NCAA)

This is a full-year course in the calculus of functions of a single variable. It includes all topics covered in Calculus AB plus additional topics. Both courses represent college-level mathematics for which most colleges grant advanced placement and credit. The content of Calculus BC is designed to qualify the student for placement and credit in a course that is one course beyond that granted for Calculus AB.

AP Calculus BC is the study of limits, derivatives, definite and indefinite integrals, polynomial approximations and (infinite) series. Though this is considered a study of single-variable calculus, parametric, polar, and vector functions will be studied. Calculus BC covers topics that are usually included in the first 2 semesters of college calculus.

**Introduction to Statistics**  
11<sup>th</sup>, 12<sup>th</sup> Grade | Semester Course  
572 - 5 credits  
(RAI, NCAA)

*This is a high school credit course. We recommend students enroll in this course in the fall and (MAT-156) Statistics through NICC in the spring.*

Statistics is a way of reasoning, along with a collection of tools and methods, designed to help us understand the world. This is an introductory course in statistics. Students are introduced to the fundamental concepts involved in using sample data to make inferences about populations. Included are exploring and understanding data, the relationships between variables, gathering data and understanding randomness and
probability. Topics discussed include displaying and describing data, the normal curve, linear regression and probability with applications in the real world.

**Statistics (NICC / MAT 156)**

11th, 12th Grade | Semester Course (in person at Wahlert)

5 High School Credits | 3 College Credits

(RAI, NCAA)

This in person course introduces the basic methods of statistical reasoning to help develop the ability to summarize data, interpret data, and draw conclusions based on the data.
Science

- Three years required.
- Four-year college-bound students must complete three years of science, including at least two of these three subject areas: Biology, Chemistry, and Physics.

**Honors Biology**
9th Grade | Year Course
721E - 10 credits
(RAI, NCAA)

Honors Biology is the study of life, which stresses scientific processes, research and experimentation, along with application to real-world problems. Students will investigate science phenomena that occur locally and globally, conduct research, discuss ideas/solutions with their peers and develop solutions using engineering tools. Students will also integrate writing skills through research papers and lab reports, as well as use their creativity in building models and giving presentations. The main themes covered included ecosystem interactions, matter and energy flow, evolution/extinction, and genetics.

**Honors Chemistry**
11th Grade | Year Course
731PL - 10 credits
(RAI, NCAA)

This hands-on laboratory course is central to the foundation of all sciences. The course has some emphasis on mathematical applications, real-world scenarios, and problem solving. Topics of study include scientific processes, atom and the periodic table, structure of matter and its properties, chemical reactions, quantitative relationships using the mole, rates of reactions, equilibrium, energy transformation, nuclear energy, and electromagnetic radiation.

**Introduction to Chemistry** (NICC | CHM 110)
11th Grade, 12th grade | Semester Course (meets 10 science credit requirements)
731PL – 3 College Credits | 10 High School Credits

**Requisites:** CHM 111 Must be taken at the same time as this course.

This course is an introduction to general and inorganic chemistry. One unit of organic chemistry is included. Topics covered are measurements, structure of the atom,
elements, compounds, chemical equations, stoichiometry, acids and bases, and biochemistry.

**Introduction to Chemistry Lab** *(NICC | CHM 111)*

*11th Grade, 12th grade | Semester Course*

*731PL – 1 College Credit*

**Requisites:** CHM 110 Must be taken either prior to or at the same time as this course.

Chemistry laboratory discipline, procedures, and skills are developed through a selection of experiments in inorganic chemistry and simple quantitative analysis. Appropriate personal and environmental safety procedures are included as a necessary part of the chemistry laboratory experience.

**Chemistry I** *(NICC | CHM 160)*

*12th grade | Semester Course*

*733 – 4 High School Credits | 3 College Credits (RAI, NCAA)*

This course deals with the structure of the atom, elements and the periodic table, chemical formulas, chemical equations, bonding, thermochemistry, gases, liquids and solids, and solution chemistry. **Prerequisite:** MAT-102 or one year high school Chemistry must be completed prior to taking this course.

**Chemistry I Lab** *(NICC / CHM 161)*

*12th grade | Semester Course*

*734 – 1 High School Credit | 1.5 College Credit (RAI, NCAA)*

**Pre-/co-requisite:** CHM 160

**Requisites:** CHM 160 - Must be taken either prior to or at the same time as this course.

Development of chemistry laboratory discipline, procedures, and skills through a selection of experiments in inorganic chemistry and simple quantitative analysis. Includes appropriate personal and environmental safety procedures as a necessary part of the chemistry laboratory experience.

**Chemistry II** *(NICC | CHM 170)*

*12th grade | Semester Course*

*735 – 4 High School Credits | 3 College Credits (RAI, NCAA)*

**Pre-requisite:** CHM 160
This course is a continuation of Chemistry I. It deals with solution chemistry, chemical kinetics, thermodynamics, transition metals, electrochemistry, and coordination chemistry.

**Chemistry II Lab (NICC / CHM 171)**

12th grade | Semester Course
737 – 1 High School Credit | 1.5 College Credit
(RAI, NCAA)

This course is a continuation of Chemistry I Lab for the further development of laboratory skills and discipline. More advanced experiments are selected to reinforce the classroom learning experience typically associated with a second semester general chemistry course. (0/48) Prerequisites: CHM-160, CHM-161.

Pre/corequisite: CHM-170
Requisites: CHM-160, CHM-161 - Must be completed prior to taking this course.
CHM-170 - Must be taken either prior to or at the same time as this course.

**Astronomy/Meteorology**

11th, 12th Grade | Semester Course
741- 5 credits
(RAI)

In this course we will explore space and learn more about our Solar System’s functions, moon phases, and what is beyond our Solar System’s atmosphere. Then, we will be meteorologists as we begin predicting weather based upon temperature, pressure, and climate indicators.

**AP Biology**

11th, 12th Grades | Year Course
725 - 10 credits
Pre-requisite: Honors Biology and Honors Chemistry
(RAI, NCAA)

*Offered on a rotating basis based on enrollment.*

This course is designed for students wishing to acquire a high level of understanding and skill development in a college-level biology class. Topics to be studied include molecular biology, cell anatomy and physiology, photosynthesis and respiration, genetics, evolution, taxonomy, botany, zoology (vertebrate and invertebrate), ecology, viruses, and fungi. In-depth reading, research, essays, and labs will be required. It is expected that students enrolled in the course will take the College Board Advanced Placement test.  *Additional summer reading requirement.*
**Honors Physics**

10\(^{th}\) Grade | Year Course  
761 - 10 credits  
(RAI, NCAA)

*Prerequisite:* Geometry completed with a C or better.

Physics provides students with a foundation in physics concepts that are used in a variety of occupations outside of the field of science. The course will help students to develop their abilities to make observations and measurements. Students will be able to use a variety of measuring instruments, including optical and electrical instruments. Students will be able to analyze a problem by identifying its parts and applying an understanding of the concepts of movement, force, light, electricity, heat, and energy. A calculator will be necessary for this course.

**AP Physics 1 – Algebra Based**

11\(^{th}\), 12\(^{th}\) Grade | Year Course  
761 - 10 credits  
*Prerequisite:* Honors Physics  
(RAI, NCAA)

*Offered on a rotating basis based on enrollment.*

AP Physics 1 is an algebra-based, introductory college-level physics course. Students cultivate their understanding of physics through inquiry-based investigations as they explore these topics: kinematics, dynamics, circular motion and gravitation, energy, momentum, simple harmonic motion, torque and rotational motion, electric charge and electric force, DC circuits, and mechanical waves and sound.

**Honors Anatomy and Physiology**

11\(^{th}\), 12\(^{th}\) Grade | Year Course  
770 - 10 credits  
(RAI, NCAA)

Honors Anatomy and Physiology is offered for college-bound students interested in furthering their understanding of the structure and function of the human body. It is especially designed for students pursuing careers in health fields. The course focuses upon the increasing levels of complexity, the complementary nature of structure and function, homeostatic regulating mechanisms, the interrelationships between humans and their environments, and personal wellness. Anatomy and Physiology foster an appreciation and respect for the health of the human body. An outcome and culminating assessment of this class is a complete fetal pig dissection.

**Urban Agriculture Enterprises**

10\(^{th}\), 11\(^{th}\), 12\(^{th}\) | Semester Course (covers two class periods on schedule)
5, 10 credits  
**Prerequisite:** Honors Biology

**Students choose one of the following course strands:** Agriculture Research, Agriculture Business/Marketing, or Agriculture Construction/Engineering.

**Course Numbers**
- Agriculture Research: 767
- Agriculture Business/Marketing: 153
- Agriculture Construction/Engineering: 768

The Urban Agriculture Enterprises class is designed to empower students to engage in local food systems in a way that interests them. This class has three strands: Ag. Research, Business/Marketing, or Construction. Students can specialize in the strand that best fits their interest, while still learning about their local food system, and engage in meaningful progress toward building a Holy Family CSA. This experience will strengthen a student’s understanding of the food system, applications of their interest in Ag careers, as well as connecting them directly with farmers/food entrepreneurs in the community. Students will also build their interpersonal and communication skills by working with others, communicating with clients/peers, along with presenting the outcome of their semester work to local stakeholders.

**Project Lead the Way**
For more information on PLTW courses and potential college credit, please click or go to the following link: [https://www.pltw.org/experience-pltw/student-opportunities](https://www.pltw.org/experience-pltw/student-opportunities)

**Project Lead the Way (PLTW): Principles of Biomedical Sciences (PBS)**
9th, 10th, 11th, 12th Grade | Year Course  
771 - 10 credits  
(NCAA)

Students investigate various health conditions including heart disease, diabetes, sickle-cell disease, hypercholesterolemia, and infectious diseases. They determine the factors that led to the death of a fictional person and investigate lifestyle choices and medical treatments that might have prolonged the person’s life. The activities and projects introduce students to human physiology, medicine, and research processes. This course provides an overview of all the courses in the Biomedical Sciences program and lays the scientific foundation for subsequent courses. This course is designed for 9th or 10th grade students.
Social Studies

- Three years required.
- The Social Studies department includes a variety of courses in the social sciences. Students must complete three full years of Social Studies.
- All students must complete United States History and U.S. Government to graduate.

Honors Modern World History

9th Grade | Year Course
805E - 10 credits
(RAI, NCAA)

In Honors Modern World History, students will investigate significant events, individuals, developments, and movements ranging from the Enlightenment to the Cold War Era. Students will use primary, secondary, and tertiary sources to analyze the past, as well as to assist in the construction of evidence-based arguments surrounding these different historical phenomena. Additionally, students will investigate the past through historical simulations and multimedia presentations/resources.

AP World History

10th Grade | Year Course
801PL - 10 credits
(RAI, NCAA)

In AP World History: Modern, students investigate significant events, individuals, developments, and processes from 1200 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation.
Honors United States History
11th, 12th Grade | Year Course
832 - 10 credits
(RAI, NCAA)

The study of American History will help students discover the relationship of the past to present. This course is taught topically rather than chronologically with emphasis on the growth and struggles on our nation rather than dates. Units involved are Independence, the Constitution, Political Parties, Causes of War, Cold War, Discrimination, Social Problems, Foreign Affairs, Lifestyle, and Economics. In each of these units, foundational learning is supported with an application to today. The class will include movies, discussion/lectures, simulations, secondary sources, group, and individual work.

AP US History
11th, 12th Grade | Year Course
831 - 10 credits
(RAI, NCAA)

Advanced Placement History is a college-level United States History course for students with a superior aptitude for reading and writing history. Students enrolled in this course may take the college board placement exam in the spring, which may qualify them for college credit. The student should expect to have extensive reading assignments with discussion, and to write at least one essay per week.

Psychology
10th, 11th, 12th Grade | Semester Course
847 - 5 credits
(RAI, NCAA)

This is a high school level course. College credit is not given for this course.

Psychology is the scientific study of mind and behavior. It focuses on how humans interact within each society. The study of psychology helps you understand yourself and other people by learning about aspects of human behavior. It can help develop sound analytical skills through the application of scientific method. This class begins with the history of psychology and will explore human behavior, vision, sleep, learning, memory, intelligence, and psychological disorders.
Introduction to Psychology *(NICC | PSY 111)*
11th, 12th Grade | Semester Course (in person)
5 High School Credits | 3 College Credits
(RAI, NCAA)

**Recommended Pre-Requisite:** *High school level Psychology*

This NICC course is a survey of psychology including theoretical and experimental findings and applications from areas such as physiological learning, memory, personality, social, abnormal, and therapy, and health psychology. **Students are responsible for the cost of the textbook.**

Sociology
10th, 11th, 12th Grade | Semester Course
846 – 5 credits
(RAI, NCAA)

Sociology seeks to make the familiar strange. It is the scientific study of social behavior. It focuses on how external dynamics have influenced human behavior. Sociology can help us look more objectively at our society and other societies, while helping us better understand ourselves and the motivations of others around us. The class will challenge your preconceived notions about many different topics. We will explore social inequality and recognize how social change takes place. The class will introduce potentially controversial topics such as poverty, race, gender, and sex.

Honors U.S. Government
12th Grade | Semester Course
853 - 5 credits
(RAI, NCAA)

Government deals with the roots and nature of politics and government, the structure and function of government in the United States with foreign comparisons, political economy, and political discussions. The emphasis will be on the cause and effect of individual involvement and actions in local, state, and federal government. Students will have an opportunity to discuss local issues: registration to vote, participation in the Youth in Government Program, and experience citizenship in action. This course is required for graduation.
Advanced Placement Government is designed to give students insight into governmental systems worldwide. The first semester will be devoted to American Government and the Constitution of the United States. The students should be prepared for a more advanced level of reading, analyzing, and writing. The course will stress current issues and their impact on our daily lives. Students with an interest in careers such as diplomatic relations, political science, interpreters, all fields of communication and government-related fields should find this course beneficial. This course ends with the Advanced Placement examination in May.
World Languages

The World Languages Department includes studies in Spanish. Students are encouraged to study a language for a minimum of two years. Many colleges recommend or require two years of language for admission. A select few require four years of language. Students will be expected to develop competencies in speaking, writing, and listening. Students entering Wahlert Catholic High School having completed several years of a language (Spanish Immersion Program), or having developed fluency through another means, can take a competency exam to determine appropriate placement in our grade level courses.

Spanish Immersion Program

Advanced Spanish Grammar & Writing  
Hispanic History  
AP Spanish Language & Culture  
Approaches to Hispanic Literature (SPAN 250)
Honors Spanish 1
9th Grade | Year Course
425 - 10 credits
(RAI, NCAA)
Prerequisite: Recommendation of previous language teacher(s)

Honors Spanish 1 is designed to develop the listening, speaking, reading, and writing skills of students who have demonstrated advanced ability and interest in acquiring the Spanish language. Vocabulary and grammar are presented in context, along with study of the culture of Spanish-speaking people.

Honors Spanish 2
10th Grade | Year Course
426 - 10 credits
(RAI, NCAA)
Prerequisite: Honors Spanish 1, or with teacher recommendation

Honors Spanish 2 is a continuation of the development of listening, speaking, reading, and writing skills of students with advanced ability and interest in acquiring the Spanish language. Students continue the study of vocabulary and grammar in context, along with additional focus on the culture of Spanish-speaking people.

Honors Spanish 3
11th, 12th Grade | Year Course
428 - 10 credits
(RAI, NCAA)
Prerequisite: A “C” or better is required in Honors Spanish 2 for both semesters, or with teacher recommendation

Honors Spanish 3 is a continuation of the development of listening, speaking, reading, and writing skills of students with advanced ability and interest in acquiring the Spanish Language. Students continue the study of vocabulary and grammar in context, along with additional focus on the culture of Spanish-speaking people.
Honors Spanish 4
12th Grade | Year Course
427 - 10 credits
(RAI, NCAA)
Prerequisite: A “C”- or better is required in Honors Spanish 3 for both semesters, or with teacher recommendation

Honors Spanish 4 is a continuation of the development of listening, speaking, reading, and writing skills. Students continue the study of vocabulary and grammar in context, along with additional focus on the culture of Spanish-speaking people.

* Students who excel in Spanish 4 and have a qualifying ACT or AP English Language exam score, may choose to take the AAPPL exam for an opportunity to attain the Seal of Biliteracy. For more information and proficiency scores, click here for the State of Iowa’s Seal of Biliteracy guidance. Families may also reach out to Becky Varley at bvarley@holyfamilydbq.org for more information regarding the Seal of Biliteracy and the AAPPL exam option.

Advanced Spanish Grammar and Writing
9th Grade | Year Course
429 - 10 credits
(RAI, NCAA)

The Advanced Spanish Grammar and Writing course is designed for students with significant proficiency in the Spanish language. Students will continue to develop their fluency by using a process approach to writing personal, descriptive, narrative, expository, and persuasive writing pieces. During this process students will also review and apply correct Spanish usage, mechanics, and sentence variety. This course is taught in Spanish and students will be expected to use Spanish in class.

Hispanic History
10th Grade | Year Course
432 - 10 credits
(RAI, NCAA)

Prerequisite: Recommendation of previous language teacher(s)

This course provides students with the opportunity to build on the information and concepts introduced in Advanced Spanish Grammar and Writing. The course provides opportunities for students to refine and perfect their skills in comprehension and expression of the Spanish language while learning more about textural and cultural representations of the Hispanic World. Taught primarily in Spanish, this course will help
students strengthen language skills needed to take AP courses. This course is taught in Spanish, and students will be expected to use Spanish in class.

**AP Spanish Language and Culture**  
11th Grade | Year Course  
430 - 10 credits  
**Prerequisite:** Hispanic History  
(RAI, NCAA)

The AP Spanish Language and Culture course is conducted primarily in Spanish with authentic materials from the Spanish-speaking world, and it is equivalent to a third-year college course in advanced Spanish writing and conversation. This course is designed to provide students with various opportunities to further improve their proficiency in listening, speaking, reading, and writing skills to be ready for the AP Spanish Language and Culture examination. This course is taught in Spanish and students will be expected to use Spanish in class.

* Students who do not pass or wish not to take the AP Spanish Language and Culture exam, can still achieve the Seal of Biliteracy by taking the AAPPL exam. Along with proficient AAPPL exam scores, students must also achieve a qualifying ACT or AP English Language exam score. For more information and proficiency scores, click here for the State of Iowa’s Seal of Biliteracy guidance. Families may also reach out to Trini Olivera at tolivera@holyfamilydbq.org for more information regarding the Seal of Biliteracy and the AAPPL exam option.

**Approaches to Hispanic Literature (SPAN 250)**  
12th Grade | Year Course  
433 – 10 High School Credits | 3 College Credits  
(RAI, NCAA)

**Prerequisite:** SPAN 111 or proficiency.

Introduction to literary analysis with readings from Spanish and Spanish-American literature. Study of the four basic genres: narrative, poetry, drama, and the essay. Conducted in Spanish.
Students must take either Introduction to Art or Drawing 1 before they can take any other level Traditional Art/Digital Art course.

**Traditional Art Courses**

**Introduction to Art**

9th, 10th, 11th, 12th Grades | Semester Course  
011 – 5 credits

*This is the pre-requisite for all Traditional & Digital Art courses.*

Introduction to Art is a foundation level studio class covering units in the elements of art and principles of design, drawing, painting, and clay. Students are introduced to compositional theory as well as multicultural and historical art themes.

**Drawing**

9th, 10th, 11th, 12th Grades | Semester Course  
037 – 5 credits

*This is the Pre-requisite for all Traditional & Digital Art courses.*

Students will develop the fundamentals of drawing as well as the elements of art and principles of design. Skills are reinforced with attention to conceptual ideas and creative problem solving. Areas of study may include landscape, still life, portraiture, figure drawing and abstraction. Students will be encouraged to develop a personal style and will integrate multicultural and art historical themes as well as technological applications. Students may take multiple semesters of this class while developing their individual style.
Painting
9th, 10th, 11th, 12th Grades | Semester Course
035 – 5 credits
Pre-requisite: Intro. to Art or Drawing

Emphasis in this course is on composition with advanced drawing skills applied in painting techniques. Students will experiment with theme development and application of style, skill and technique while communicating visually. Areas of study may include figure drawing, portraiture, landscape and illustration. Students will be acquainted with multicultural and art historical themes as well as technological applications. Students may take multiple semesters of this class while developing their individual style.

3D Art Studio
9th, 10th, 11th, 12th Grades | Semester Course
041 – 5 Credits
Pre-requisite: Intro. to Art or Drawing

This course involves planning, design and construction of a variety of three-dimensional objects. Students will assess aesthetic qualities of form and the surface treatments of objects as well as compositional theory while using different mediums such as plaster, clay, cardboard, glass, etc. Students will be acquainted with multicultural and art historical themes as well as current technological applications.

Advanced Painting (CBE)
10th, 11th, 12th Grades | Semester Course
036CBE – 5 Credits
Pre-requisite: Intro. to Art, Painting

This advanced painting course explores color, composition, and expression in the medium of paint. The elements and principles of design are utilized in addition to color theory to impress an understanding of successful art. Students will further develop and expand their skills needed for creating successful and meaningful paintings through the creation of multiple artworks. Composition, observation, and rendering skills will be emphasized as students explore a range of painting media and are introduced to oil paints. The structure of the class will consist of guided and independent exercises, class projects, individual/group discussion, and critiques. Students will produce a working portfolio by the end of the semester, consisting of 5 or more works of high quality demonstrating proficiency in both watercolor and acrylics. Along with each work, students will provide an artist statement that reflects their thought process and intentions behind the artwork.
**Advanced 2D**

11th, 12th Grades; 10th with teacher recommendation | Semester Course
046 - 5 Credits

**Pre-requisite:** *Introduction to Art or Drawing, and Painting*

This course involves planning, design and construction of a variety of two-dimensional projects. Students will explore drawing and painting and higher level 2D media that are not explored in the entry art courses. This course is designed to further develop their painting and drawing skills and expose students to media such as charcoal, more in depth painting techniques. They will be challenged to develop concepts and ideas based on personal experience and exploration of subject matter of their own interest. Students must take Drawing 1 and Painting, or Intro to Art and Painting or a combination of all three in order to take this course.

**Digital Art Courses**

**Intro to Digital Photography**

9th, 10th, 11th, 12th Grades | Semester Course
055 – 5 Credits

**Prerequisite:** *Introduction to Art or Drawing. This is a prerequisite for all Digital Art courses.*

Students must have an SD memory card for this class. Students in Digital Photography will learn to communicate visually using digital cameras. Students will learn all aspects of photography including camera functions, compositions and the editing software Adobe Photoshop and Adobe Lightroom.

**Advanced Digital Photo**

10, 11, 12th Grades | Semester Course
045 - 5 credits

**Pre-requisite:** *Introduction to Digital Photography*

Advanced Digital Photography builds on techniques learned in Intro to Digital Photography and affords students the opportunity to further develop and refine their technical and aesthetic skills. Projects are more open-ended, and students are encouraged to develop their own styles as they create a portfolio of work.
Textile Design
9th, 10th, 11th, 12th Grade | Semester Course
015 - 5 credits  
*Pre-requisite: Introduction to Art and/or Drawing 1*

Textile Design will introduce students to various methods of surface fabric design such as block printing, color dyes, weaving, batik, screen printing, Shibori, digital surface design and more. Students will learn about the history of different surface design methods, utilize each method to create an original surface design then apply their fabric in a functional manner such as pillow design, pendant lamps, garments, wallpaper, gift wrap, furniture design, etc.

Digital Design Academy (NICC)

NICC has put together a cluster of courses available to high school students interested in the area of digital design. These courses are designed for high school students only to receive college credit while in high school. **These PICC courses are free of cost to those who qualify. Students who take these courses will be off campus during 5th, 6th, 7th, and 8th class periods.**

To register for these courses, students must have the following form completed and returned to Wahlert’s Counseling Office.

- PICC Registration Form
- Dubuque Community School District New Student Enrollment Form

Illustrator *(NICC / GRA 129)*

3 College Credits | 5 High School Credits  
Spring Semester | Tuesdays & Thursdays, 1:00 p.m. – 3:00 p.m.

*This course is taught in-person on NICC’s Peosta campus.*

Students learn and practice the many tools, techniques, and capabilities of Adobe Illustrator through creation of graphic illustrations, as well as vocabulary and navigation specific to an object-based drawing program. **Students are responsible for their own transportation to and from this course.**
**PhotoShop** *(NICC / GRA 139)*  
3 College Credits | 5 High School Credits  
Fall Semester | Mondays & Wednesdays, 1:00 p.m. – 3:00 p.m.

*This course is taught in-person on NICC’s Peosta campus.*

Practical knowledge on basic operating issues with Adobe PhotoShop. Directed practice focuses on learning the tools, menus, palettes, processes, and filters involved with simple to moderate imaging manipulation using PhotoShop. **Students are responsible for their own transportation to and from this course.**

**Web Design** *(NICC / GRA 151)*  
3 College Credits | 5 High School Credits  
Spring Semester | Mondays & Wednesdays, 1:00 p.m. – 3:00 p.m.

*This course is taught in-person on NICC’s Peosta campus.*

Introduces the basics of Web page creation and maintenance. Uses software products and HTML editors to aid Web designers in developing and maintaining Web pages. Focuses on the planning and designing attractive and easily navigated Websites. Stresses good screen layout and design principles. Taught with emphasis on the client when developing Websites. **Students are responsible for their own transportation to and from this course.**

**Publication Software** *(NICC / GRA 179)*  
3 College Credits | 5 High School Credits  
Fall Semester | Tuesdays & Thursdays, 1:00 p.m. – 3:00 p.m.

*This course is taught in-person on NICC’s Peosta campus.*

An overview of publication design concepts through hands-on exercises. Covers basic word processing and typographical conventions, page layout elements that streamline production, advanced procedures when working with boxes and procedures for creating or formatting long documents. **Students are responsible for their own transportation to and from this course.**
The music department recognizes the importance of music in developing a student’s self-esteem and realizes the value of nurturing an appreciation for music and the arts. Students are encouraged to consider taking an elective from the following instrumental and choral options.

**Chorale**

9th, 10th, 11th, 12th Grade | Year Course  
0841 - 10 credits

Chorale is a non-auditioned 9-12 choral ensemble. Prior music participation is not required to participate in this course. Students will study vocal production through choral music, learning how to read in unison and parts. They study the basic symbols in reading and interpreting music, practice sight-reading, apply music theory, learn to balance and blend voices, explore and sign different styles of music, and practice appropriate behavior while participating in large groups. The chorus performs at four concerts each year: the Sacred Concert, the Christmas Concert, the March Concert, and the Spring Concert. Participation in this choir provides social interaction for each student as well as proper personal attributes such as responsibility and self-discipline.

**Chamber Choir**

10th, 11th, 12th Grade | Year Course  
089 - 10 credits

Chamber Choir is an auditioned mixed choral ensemble and is made up of students in grades 10-12. Students must audition and be accepted to enroll in the chamber choir. This ensemble will learn choral music in a more rigorous setting and should have prior music experience. Chamber Choir is the flagship choir at Wahlert High School, where students will be expected to participate and perform at a variety of performances and Masses and Baccalaureate. Students participate in four performances throughout the school year. These include the Sacred Concert, Christmas Concert, Pops Concert, Large Group Contest, and Spring Concert.

**Concert Band**

9th, 10th, 11th, 12th Grade | Year Course  
065 - 10 credits

Concert Band is designed to give students a wide variety of musical experiences including marching band, pep band, and wind ensemble. Students will study music from historic time periods and given lessons to aid in their musical development. The
marching band performs at all home football games; the pep band performs at home basketball games; and the wind ensemble performs at several major concerts each year. An ensemble performs at masses and festivals. As an adjunct to the concert band program, students are encouraged to participate in festival honor bands, All-State auditions, and solo and ensemble contests.

**Guitar Ensemble**  
9th, 10th, 11th, 12th Grade | Semester Course  
058 - 5 credits

This ensemble will study guitar theory, history, mechanics, reading, and performance. Students create and arrange melodies. By arranging simple melodies from basic structural rules and by expanding these melodies, students learn to understand the creative process firsthand.

**Orchestra**  
9th, 10th, 11th, 12th Grade | Year Course  
088 - 10 credits

Orchestra is offered to all 9th-12th grade students who play violin, viola, cello, or string bass. Beginners are always welcome. Students will learn to develop an appreciation of music, build skills for efficient practicing, follow a conductor, and increase music literacy - including music reading, recognizing articulations and musical styles, and understanding musical terms. Emphasis will also be placed on exposing each student to a variety of performing experiences and music in which to apply these skills. Participation is required for concerts.

**Musical Theatre**  
9th, 10th, 11th, 12th Grade | Semester Course  
084 - 5 credits

This course will give students an opportunity to analyze and learn about music through performance and study of musical theater. This course is a broad overview of the history, styles, works, and artists of the musical theater genre. Students will study the work of the actors/singers/dancers and use this study to inform their performances in solo and group settings. There will also be a look at the audition process as well as providing background on musical theater history and repertoire. Both theoretical and practical in study, this course covers basic music theater performing, vocal production techniques, movement and blocking, and music theory.
AP Music Theory
11th, 12th Grade | Year Course
085 - 10 credits

The Music Theory course is designed to enhance music skills and basic music fundamentals. The essential aspects of melody, harmony, rhythm, and form are studied. Throughout the course of the year students will study basic notation, scales, key signatures, intervals, triads, cadences, non-chord tones, form, part-writing and analysis of a score. Aural dictation and ear training are also an integral part of the course and will be taught throughout the year. Individual creativity is nurtured through both rhythmic and melodic composition.

Roots of Rap
9th, 10th, 11th, 12th Grade | Semester Course
086 - 5 credits

What made Notorious B.I.G. so popular? Where did Tupac’s artistry come from? What influenced many of Childish Gambino’s biggest hits and albums? Where does rap and hip hop come from? The 2 biggest genres of music didn’t just appear out of thin air. Rap and hip-hop artists stem from a long history of American-born music dating all the way back to the early 1900s when blues first made its way into the mainstream during WWI.

This class is a genre study in today’s modern rap and hip-hop themes and artists as well as a dive into jazz and blues music that ultimately set the world up for rap and hip hop. These genres are some of the only American-born styles of music, and none of them would exist without jazz.

Not only will the class focus on the musical ideas that morphed and shaped what we hear on the radio today, but it will also look into cultural influences in film; some of these films include, Soul and Thelonious Monk: Straight, No Chaser; literature; books including Ma Rainey’s Black Bottom and Blues People; and other media such as Childish Gambino’s album Because the Internet.

Revolution of Rock ‘n Roll
9th, 10th, 11th, 12th Grade | Semester Course
093 - 5 credits

Revolution of Rock ‘n’ Roll Music History delves into the dynamic evolution of one of the most influential genres in modern music history. From its roots in blues, jazz, and folk to its diverse subgenres and global impact, this course provides a comprehensive journey through the cultural, social, and artistic landscapes shaped by rock music. Through immersive exploration of key artists, movements, and pivotal moments, students will analyze the history of rock as a catalyst for change, expression, and rebellion. By
examining its sonic innovations, lyrical themes, and socio-political contexts, students will gain a deeper understanding of how rock music has both reflected and shaped societal attitudes, values, and identities throughout the 20th and 21st centuries. No music experience is necessary for participation in this course, as the class will be taught as a music history class.

Show Choir
9th, 10th, 11th, 12th Grade | Semester Course
090 - 5 credits

* Based on audition. No prior music experience is required, though it is encouraged for performers to be involved in other performing ensembles.

In Show Choir, singers will learn and perform different kinds of popular music and styles, with a focus on singing techniques, breath control, dancing, stamina, reading music, and stage presence. The music learned will be the ensemble’s competition set list for the school year. Student performers should be ready to learn, memorize, and perfect songs for the competition season. Rehearsals outside the school day may be required once competition season begins. There is a fee associated with joining the ensemble, which goes towards paying for costumes, arranging and copyrighting music, and costumes. Auditions happen in May and August. If interested, contact Ms. Amy Pham to audition for next year’s group.
Accounting 1
9th, 10th, 11th, 12th Grade | Semester Course
143 - 5 credits

Accounting 1 is designed to help students gain knowledge and skills needed for entry level accounting careers. These positions might include payroll clerk, cashier, purchasing agent, accounts receivable and accounts payable, shipping, billing, inventory control, and bookkeeping clerks. Most business-related fields depend upon basic accounting knowledge as well. This course is strongly recommended as a foundation on which to continue the study of accounting and/or business at the college level.

Accounting 2
9th, 10th, 11th, 12th Grade | Semester Course
144 – 5 credits

Accounting 2 expands information from the first-year course. Accounting 2 focuses on accounting for a corporation. Inventory, Depreciation, Accruals, Paying Dividends, and Uncollectible Accounts are the topics covered in this advanced course. This course also introduces the role that payroll plays in accounting. Students interested in majoring in accounting or any business field in college are encouraged to take this course.

Personal Finance 1
10th, 11th, 12th Grade | Semester Course
149 - 5 credits

Personal Finance 1 will cover the basics of money management. The curriculum and class will be formatted as the current solo Personal Finance operates. Students will learn the basics about saving, investing, retirement/college funding, debt/credit management, budgeting, checking accounts, insurance, taxes, and mortgages.
**Biz Innovator**  
11th, 12th Grade | Semester Course  
151 - 5 credits

Biz Innovator is the entrepreneurship curriculum toolkit that teaches the “entrepreneurial mindset” to students by encouraging creativity, innovation, critical thinking and problem-solving and equipping students with the skills necessary to succeed and excel.

Students interested in Grounded Coffee Co. will need to apply through the student management team. Please see the Counseling Office for more details.

*College credit can be earned through The University of Iowa.*  
https://jacobsoninstitute.org/bizinnovator?fuseaction=app.credit

---

**NICC Business Course Options (Online)**

NICC has courses available to high school students interested in the area of business. These are not a sequence of courses. Students may participate in any that meet their post-secondary needs. **These PICC courses are free of cost to those who qualify.**

To register for these courses, students must have the following form completed and returned to Wahlert’s Counseling Office. Students must work with Wahlert’s Counseling Office to officially sign up for “College Release – Online”.

- PICC Registration Form  
- Dubuque Community School District New Student Enrollment Form

**Introduction to Business (NICC | BUS 102)**  
3 College Credits | 5 High School Credits

*This is an online course offered through NICC.*

The student will be exposed to contemporary American business in relation to the many facets of the business world, including ethics, human resources, marketing functions, production, finance, and types of business organizations.
**Principles of Management** *(NICC / MGT 101)*  
3 College Credits | 5 High School Credits

*This is an online course offered through NICC.*

A study of basic factors in the work environment that affect managerial decision making. Emphasis is placed on the four functions of management as well as a discussion of managerial ethics and social responsibility.

**Principles of Macroeconomics** *(NICC / ECN 120)*  
3 College Credits | 5 High School Credits

*This is an online course offered through NICC.*

This course provides students with the information essential to an understanding of the economic forces at work in our global society: the market system, supply and demand, gross national product, gross domestic product, the banking system, fiscal and monetary policy, international trade, and various economic systems employed throughout the world.

**Principles of Marketing** *(NICC / MKT 110)*  
3 College Credits | 5 High School Credits

*This is an online course offered through NICC.*

This course covers the broad concept of marketing including product, distribution, promotion, and price decisions. Subjects include the role of buyers and the social issues involved in the marketing process, along with environmental problems, issues, and the philosophy of marketing management.
Principles of Engineering – Project Lead the Way (PLTW)
9th, 10th, 11th, 12th Grade | Year Course
250 - 10 credits (RAI)

Prerequisite: Completed or currently enrolled in Integrated Math II

This survey course exposes students to major concepts they’ll encounter in a post-secondary engineering course of study. Topics include mechanisms, energy, statics, materials, and kinematics. They develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges, document their work and communicate solutions.

For more information on Project Lead the Way (PLTW) courses and potential college credit, please click here.

Aerospace Engineering – Project Lead the Way (PLTW)
9th, 10th, 11th, 12th Grade | Year Course
248 - 10 credits

Prerequisite: Completed or currently enrolled in Integrated Math II

Aerospace Engineering ignites students’ learning in the fundamentals of atmospheric and space flight. Aerospace Engineering is one of the specialization courses in the PLTW Engineering program. The course deepens the skills and knowledge of an engineering student within the context of atmospheric and space flight. Students explore the fundamentals of flight in air and space as they bring the concepts to life by designing and testing components related to flight such as an airfoil, propulsion system, and a rocket. They learn orbital mechanics concepts and apply these by creating models using industry standard software. They also apply aerospace concepts to alternative applications such as wind turbines and parachutes. Students simulate a progression of operations to explore a planet, including creating a map of the terrain with a model satellite and using the map to execute a mission using an autonomous robot.
Introduction to Robotics
9th, 10th, 11th, 12th Grade | Semester Course
260 - 5 credits

This course will introduce the field of robotics while helping students to explore some of the technology that robots rely upon. Students will connect their interest in science, technology, engineering, and mathematics (STEM) subjects to career opportunities within a wide range of fields. This introduction provides students with activities that progress into challenges that will require effective use of resources and creative problem-solving to complete. Students will use the REV Class Bot design. Students will be expected to work effectively both individually and collaboratively, and will be expected to comprehensively document their learning, production, and overall progress through the content with an engineering notebook.

AP Computer Science Principles
9th, 10th, 11th, 12th Grade | Year Course
913 - 10 credits

Prerequisite: Algebra I & Integrated Science (students do not need to be a “programmer” to take this course.)

Computing affects almost all aspects of modern life, and all students deserve an education that prepares them to pursue the wide array of opportunities that computing has made possible. This course seeks to provide knowledge and skills to meaningfully participate in our increasingly digital society, economy, and culture.

Computer Science Principles (CSP) curriculum is a full-year, rigorous, entry-level course that introduces high school students to the foundations of modern computing. The course covers a broad range of foundational topics such as programming, algorithms, the Internet, big data, digital privacy and security, and the societal impacts of computing. All teacher and student materials are provided for free online and can be accessed at code.org/csp.

This is an AP endorsed course where students can earn college credit by satisfactorily passing the AP test (70 multiple choice) and completing the Performance Task (PT). Students submit their coding solution for the PT with video explanation and written responses.

Computer Science Discoveries
9th, 10th, 11th, 12th Grade | Semester Course
914 - 5 credits
CS Discoveries is an introductory computer science course that empowers students to create authentic artifacts and engage with computer science as a medium for creativity, communication, problem solving, and fun. Units of study: Unit 1 Problem Solving and Computing, Unit 2 Web Development, Unit 3 Interactive Animations and Games, Unit 7 AI and Machine Learning, and physical computing with Playground Circuits. All teacher and student materials are provided for free online and can be accessed at code.org/csp.

**AP Computer Science A (Javascript)**

*10th, 11th, 12th Grade | Year Course*

566 - 10 credits (RAI)

* Students do not need to be a “programmer” to take this course. This course is recommended to take AP Computer Science Principles.

AP Computer Science A introduces students to computer science through programming. Fundamental topics in this course include the design of solutions to problems, the use of data structures to organize large sets of data, the development and implementation of algorithms to process data and discover new information, the analysis of potential solutions, and the ethical and social implications of computing systems. The course emphasizes object-oriented programming and design using the Java programming language.

This is an AP endorsed course where students can earn college credit by satisfactorily passing the AP test (40 multiple choice) and completing 4 free response questions. All teacher and student materials are provided for free online and can be accessed at code.org

**Computer Aided Drafting I/ NICC CAD 104 Computer Aided Drafting**

*9th, 10th, 11th, 12th | Fall Semester Course with additional hours (possibly during J-Term)*

567 - 5 Credits (3 NICC Credits)

This course provides students with an introduction to two-dimensional computer-aided design (CAD). This software is used in various career fields, such as: engineering, design, music production, art curator, video game design, architecture, business, communication, science and technology, installation, repair, maintenance, biomedical engineering, and many others. Students will use industry-leading software, Autodesk AutoCAD, to create a variety of mechanical and architectural drawings. The course uses an exercise-intensive approach to cover topics found on the Autodesk AutoCAD Certified User exam. The goal is that students will have a solid foundation of the program to allow them to further build their skills in advanced CAD and rendering and animation.
Computer Aided Drafting II/ NICC CAD 104 Computer Aided Drafting
9th, 10th, 11th, 12th | Fall Semester Course with additional hours (possibly during J-Term)
568 - 5 Credits (3 NICC Credits)

Prerequisite: Completed Computer Aided Drafting I

Academic Strategies

Academic Strategies
9th, 10th, 11th, 12th Grade | Semester or Year Course
992 – 5, 10 credits

Administrative Placement Only.

This course is designed for students with identified learning differences in particular content area(s). The Strategy teacher works with the students to identify individual learning styles, strengths, and weaknesses. With targeted instruction in areas of need, students learn strategies and skills to improve academic performance in content classes. Students track their progress by monitoring their grades with an emphasis on executive functioning skills. Strategy teacher works closely with the content area teacher(s) to ensure the student is successful in assigned courses.

Placement in this class is by recommendation of an administrator only.

Foundations of an Eagle
9th Grade | Year Course
993 - 10 credits
Per Administrative Approval

This is an optional course for freshman students to serve as a transition to Wahlert High School. It has a strong emphasis working with the Habits of Success, to build a foundation to prepare students for success at the high school level. Students will be part of a classroom session where they will learn about numerous high school transitional
This course will include topics in the following areas...

- How to succeed in high school
- Academic four-year plan
- College, career and social/emotional counseling
- Computer technology (PowerSchool, Google Docs, Canvas, etc.)
- Wahlert code of conduct and procedures
- Study and organizational skills
- Time management
- Opportunity to work with other freshmen in a small group setting.

NICC | Manufacturing/CNC Academy

NICC has put together a cluster of courses available to high school students interested in the area of manufacturing/CNC. These courses are designed for high school students only to receive college credit while in high school. These courses are offered on NICC’s Peosta campus. These are not a sequence of courses. Students may participate in any that meet their post-secondary needs. These PICC courses are free of cost to those who qualify. The courses listed below will take place on NICC’s Peosta campus. Students will earn a CNC Career Pathway Certificate upon course completion. Students who take these courses will be off campus during 5th, 6th, 7th, and 8th class periods.

To register for these courses, students must have the following form completed and returned to Wahlert’s Counseling Office.

- PICC Registration Form
- Dubuque Community School District New Student Enrollment Form

3D Modeling and Programming *(NICC / MFG 149)*

10th, 11th, 12th Grades
2 College Credits | 5 High School Credits
Spring Semester at NICC | Monday – Thursday, 1:30 p.m. – 3:30 p.m.

This course is offered in-person and on NICC’s Peosta campus.

During this course students will be introduced to computer aided drafting through the Solidworks software. Students will create 3 dimensional models and blueprints. Students will also advance their Mastercam skills by learning how to program 3
dimensional parts for CNC mills. **Students are responsible for their own transportation to and from this course.**

**Introduction to CNC** *(NICC | MFG 182)*

5 College Credits | 5 High School Credits  
**Fall Semester at NICC | Monday – Thursday, 1:30 p.m. – 3:30 p.m.**

*This course is offered in-person and on NICC’s Peosta campus.*

During this course students will learn the history of CNC, the skills needed to work in industry, and how to work safely in industry. Students will be introduced to machining math, print reading, different CNC machines/tools and CNC programming. During this course, students will obtain a Snap-on Certification for Precision measurement. **Students are responsible for their own transportation to and from this course.**

This ends the course descriptions for each department at Wahlert Catholic High School. If there is a course you are interested in, but do not see listed, please contact Wahlert’s Counseling Office at (563) 583-9771 or email klenart@holyfamilydbq.org.

**Examples of additional course ideas could include (but are not limited to) …**

- Marine Biology
- Fundamentals of Welding
- Automotive courses
- Architectural Design
- Woodworking
- Metals
- Aviation courses
- Calculus III
